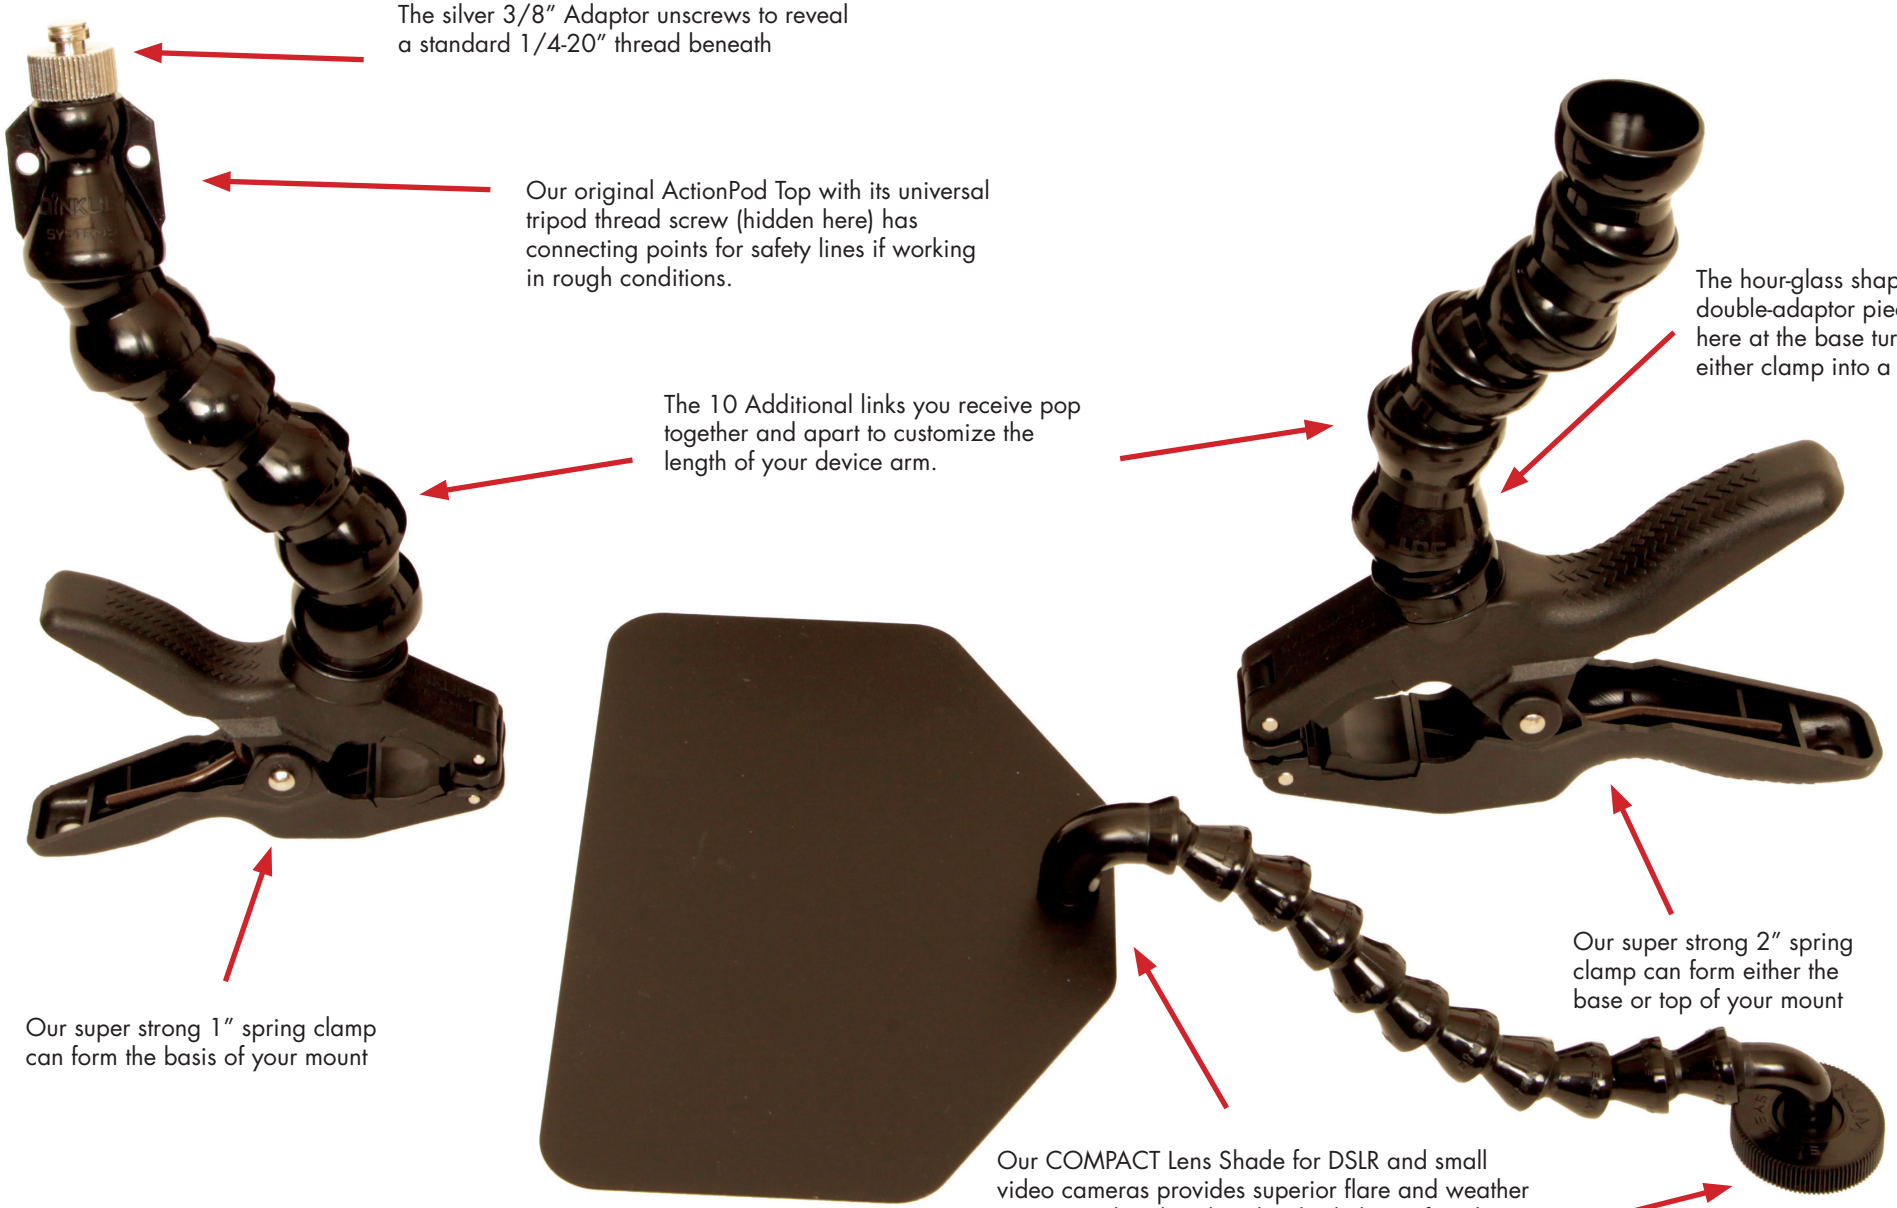
The silver 3/8″ Adaptor unscrews to reveal a standard 1/4-20″ thread beneath

Our original ActionPod Top with its universal tripod thread screw (hidden here) has connecting points for safety lines if working in rough conditions.

The 10 Additional links you receive pop together and apart to customize the length of your device arm.

The hour-glass shaped double-adaptor piece here at the base turns either clamp into a top



Our super strong 1″ spring clamp can form the basis of your mount

Our super strong 2″ spring clamp can form either the base or top of your mount

Our COMPACT Lens Shade for DSLR and small video cameras provides superior flare and weather protection than hoods. The shade has a female 1/4-20″ connection at the base of the shoe so it can also be used as a cutter / clamping french flag when attached to one of the mounts
