Ground Loop Isolator

**3.5 mm Male to Female**

## Thank you for choosing Kopul.

The GLI-35 Audio Ground Loop Isolator eliminates hum and noise in the audio signal between to audio devices with 3.5 mm connectors. It operates without an external power supply.

Place it inline between devices like a computer, TV, smartphone, and stereo system to remove ground loop hum without degrading the sound.

The Ground/Lift switch should always be in the GND position. If hum persists, switch to LIFT to disconnect earth ground from the device.

## Specifications

### Connectors

3.5 mm TRS male  
& female

### Controls

Ground/Lift switch

### Dimensions

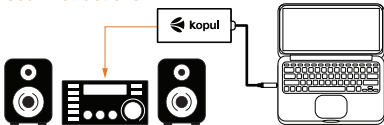

**(L × H × W)**

2.4 × 0.7 × 0.8 in.  
(6.1 × 1.8 × 2.2 cm)

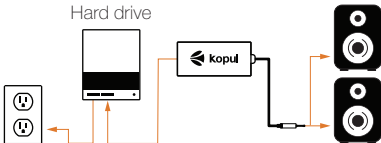

### Weight

0.9 oz. (26 g)

## User Instructions

Hard drive
