Step 1

Assemble the Cabinet Sides

• Lay out the 2 Side Frames (#A) on a flat surface and insert Cabinet Sides (#J) into the middle of each frame. Secure the boards inside the frame using Bolts (#T).

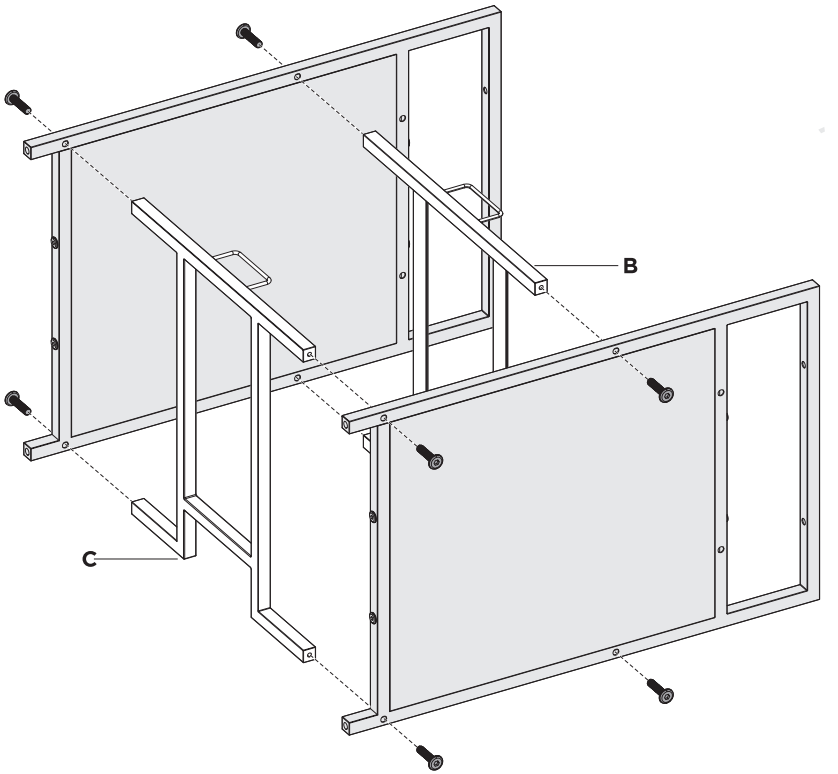

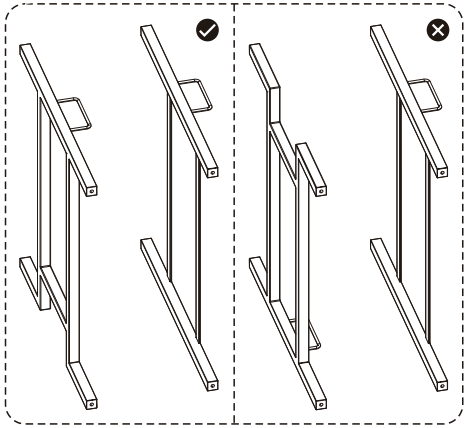

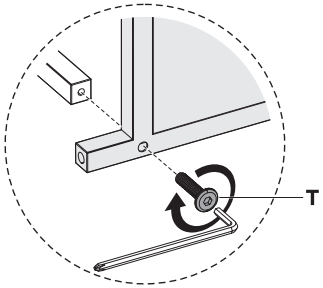

Step 2

Connect the Sides

• Connect the 2 sides together using Upper and Lower Drawer Shelves (#B, and #C) and Bolts (#T) in the orientation shown here.

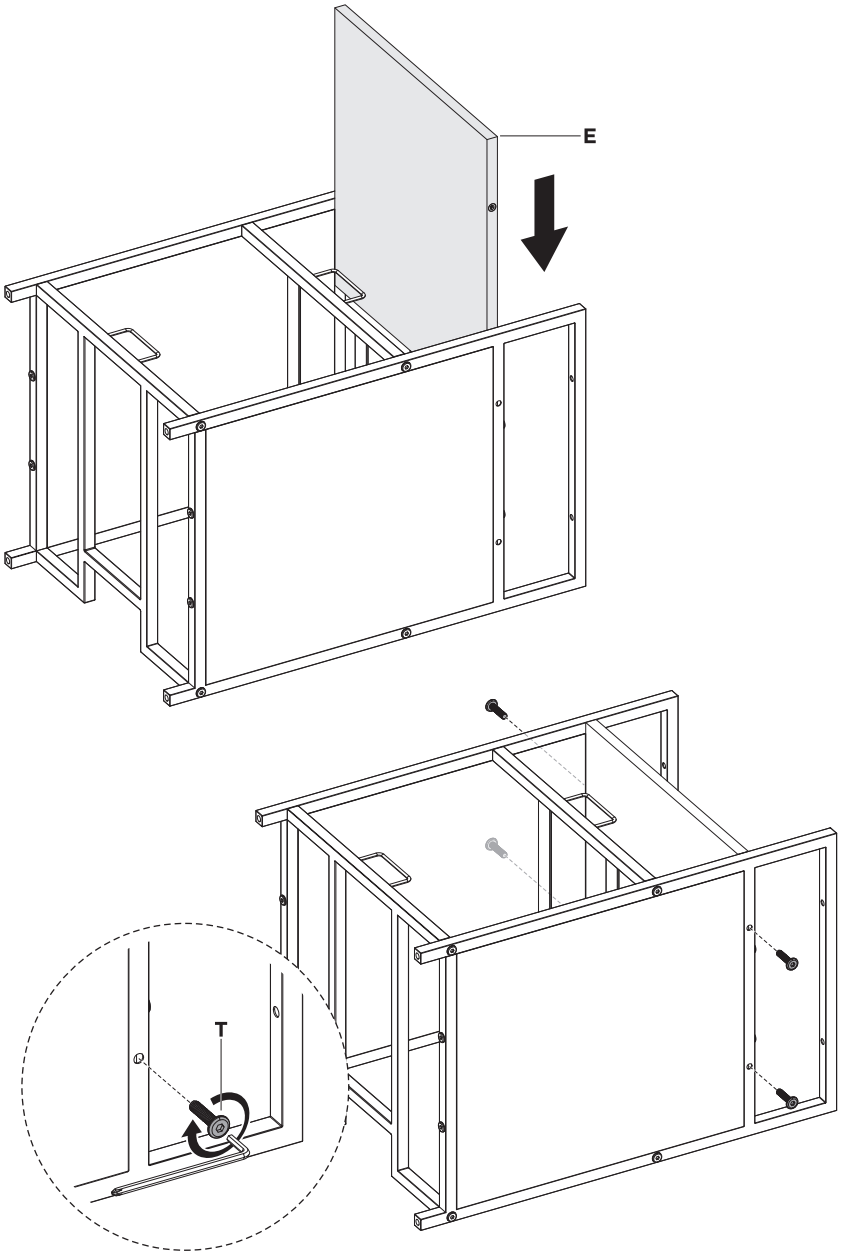

Step 3

Install the Shelf

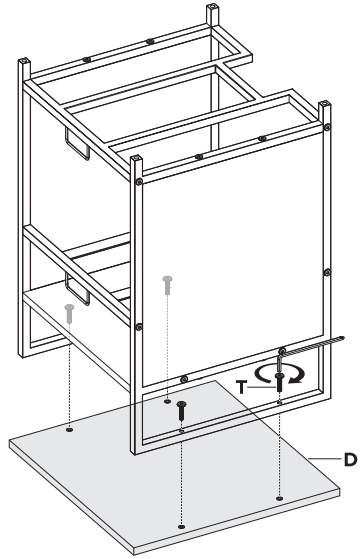

• Install the Top Shelf (#E) in the location shown here and secure it in place using Bolts (#T).

Step 4

Install the Cabinet Top

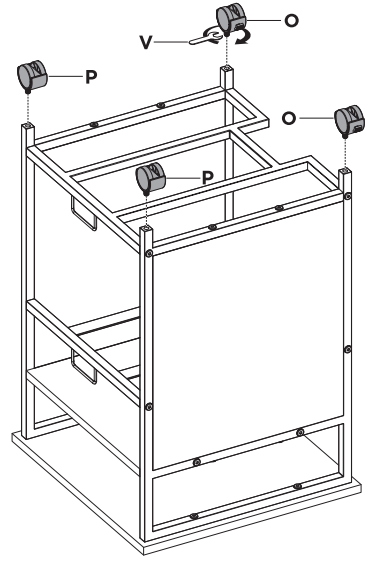

• Lay the Cabinet Top (#D) upside down on a flat and smooth surface. Carefully place the cabinet frame on the Cabinet Top so that the holes are aligned, then secure them together using Bolts (#T).

Step 5

Attach the Casters

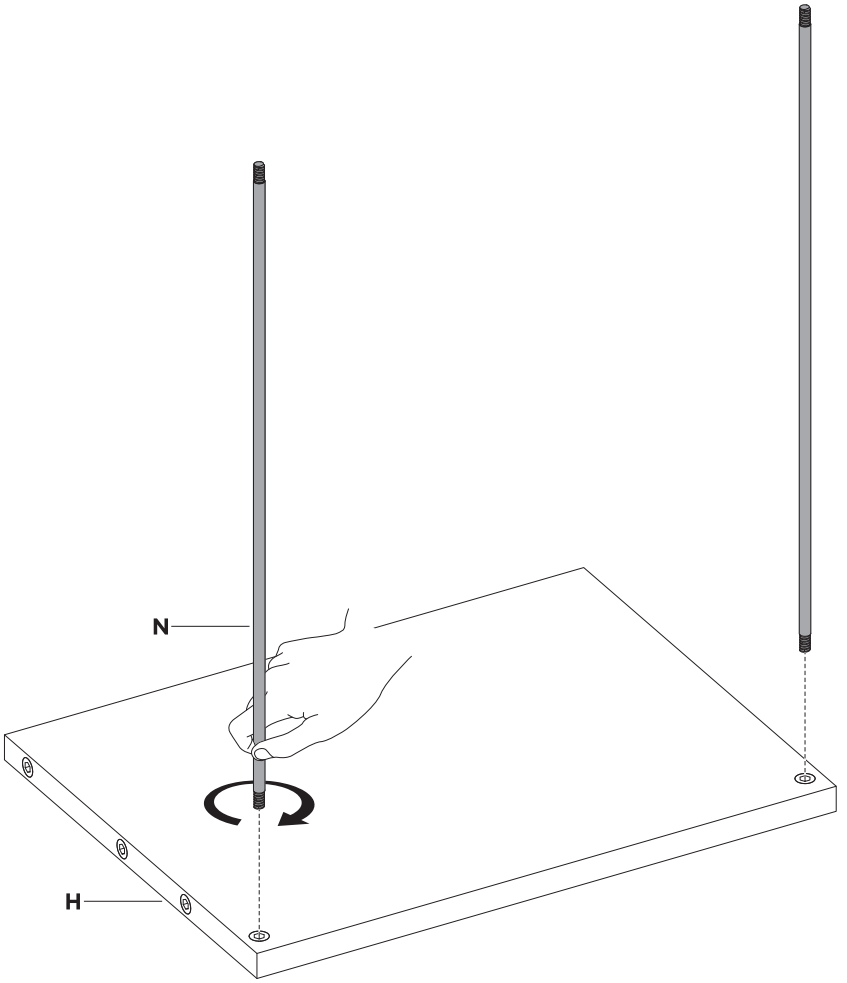

• Attach the casters in the orientation shown for best access to the locking mechanism. The Locking Casters (#O) should go on the front of the cabinet as shown here, so that they are on the same side as the drawer handles. The Non-Locking Casters (#P) will then go on the rear of the cabinet.
• Tighten all 4 casters into place using the Wrench (#V).

Step 6

Assemble the Large Drawer

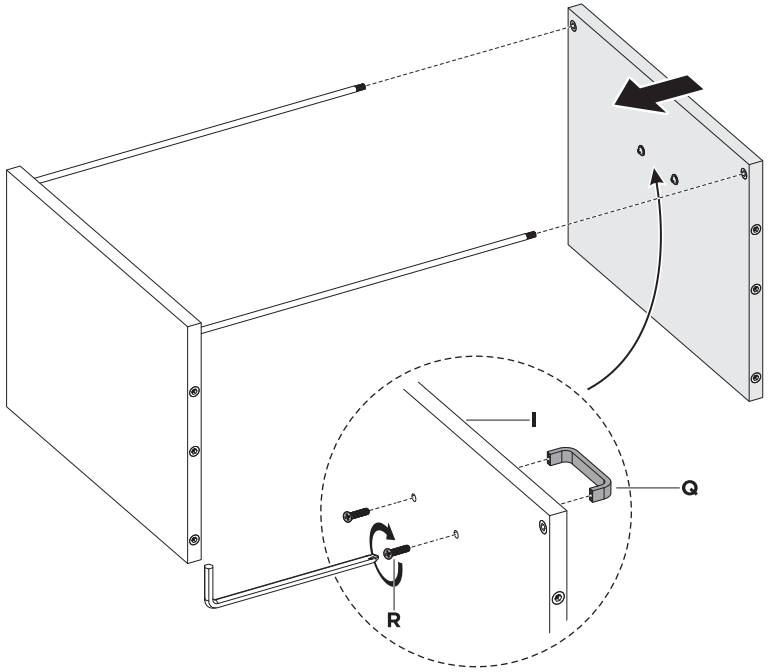

• Screw one end of the File Folder Rails (#N) into the two threaded holes on the large side of the Large Drawer Back (#H).

• Align the front and back ends of the drawer with the File Folder Rails. Unscrew the rails from the drawer back and rest each end of the rail in the corresponding hole on the front/back sides of the drawer. Tighten them by rotating the entire rail so that it screws into both ends at the same time.

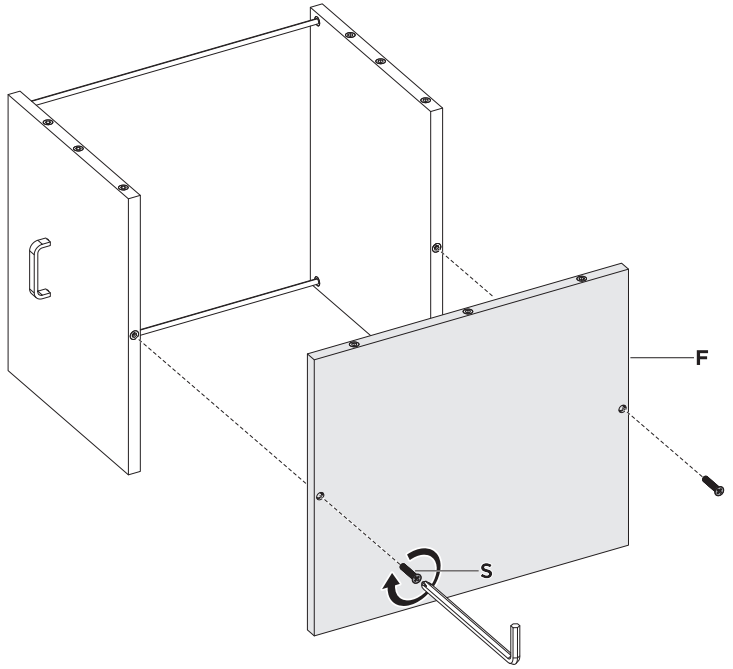

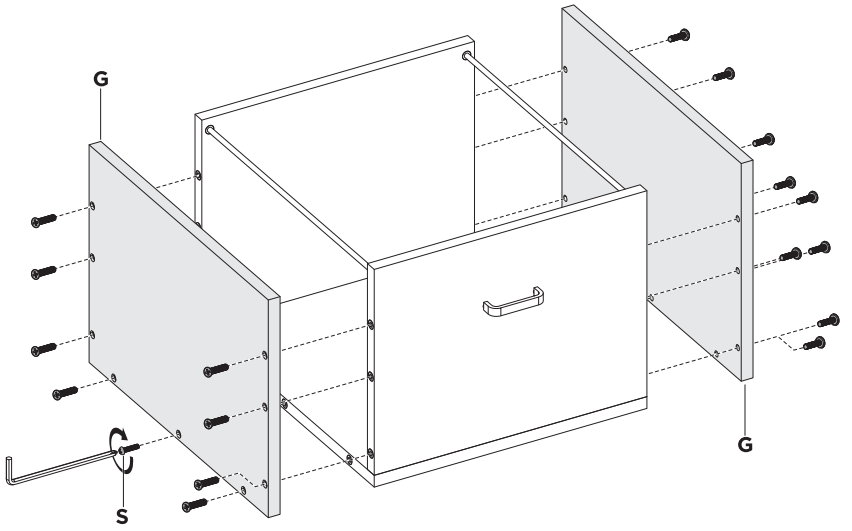

Step 8

Finish Assembling the Large Drawer

• Attach the Drawer Bottom (#F) to the bottom of the drawer using Bolts (#S).
• Attach the Large Drawer Sides (#G) to each side of the drawer using Bolts (#S).
