Bi-Color

Vlog LED Light

with Dual Accessory Arms

REVO®

Thank you for choosing Revo.

The Revo Vlog LED light provides bright bi-color light for vlogs and video chats. It runs on the power of a standard USB port. A 22-inch flexible arm supports the 48-LED ring-light fixture, and two 13-inch flex arms are topped with 1/4-20 threads for a camera or accessories like a microphone or mirror. The fixture's LEDs offer cool, warm, and neutral lighting modes to match most ambient lighting conditions. Ten-step power adjustment lets you select the ideal brightness for your environment.
