Introduction to P843

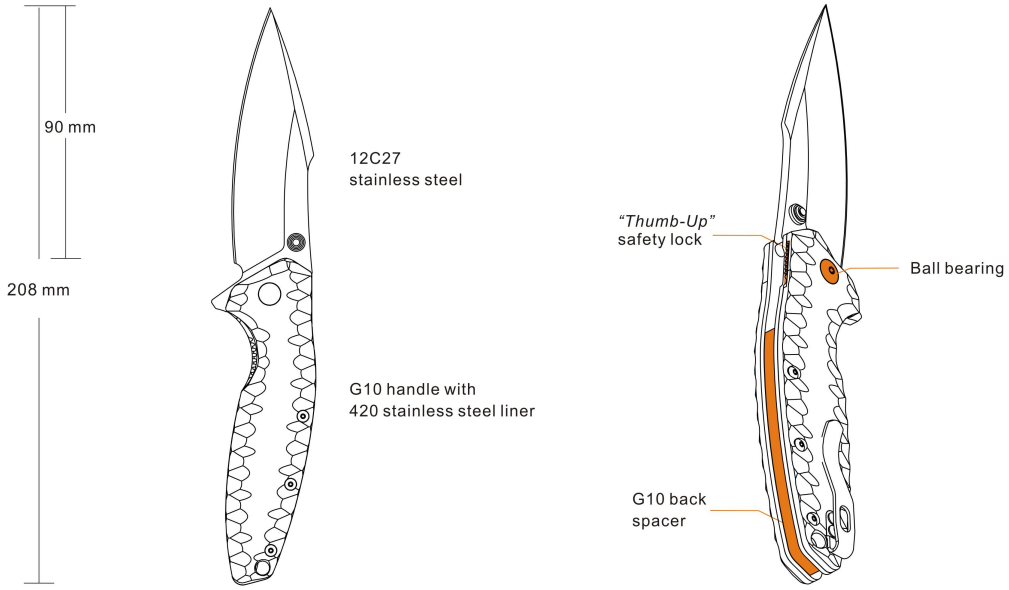
P843-B (black color handle)

P843-W (sand color handle)

SPECIFICATION

Overall Length: 208 mm / 8.19”
Blade Length: 90 mm / 3.54”
Blade Thickness: 3.1 mm/ 0.12”
Weight: 145 g/ 5.11 oz
Blade: 12C27 stainless steel (58~60HRC), brushed
Handle: G10 w/ 420 stainless steel liner
Locking: Liner lock
Bearing: Ball bearing washer

FEATURES



Sandvik 12C27 Stainless Steel, Cryogenic Treatment
Swedish stainless steel 12C27 is a martensitic stainless chromium steel with an optimized analysis for high quality professional knife applications. After proper heat treatment, the composition of carbon and chromium gives a unique combination of properties including good corrosion and wear resistance. And RUIKE is such a manufacturer specialty and sophisticated in treating Sandvik steels like 12C27 and 14C28N. This blade finally goes to 57~59 HRC.

G10 Knife Handle

RUIKE knife handles are a blend of fiberglass and resin, giving the knives the ability to withstand intense forces, preventing scrapes and general abrasion.

"Thumb Up" safety lock

1) Avoids accidental blade closure;
2) Installed at the back of the handle, this safety lock allows quick turning on/off by thumb-up/thumb-down movement;
3) Patented, proprietary technology.

Ball bearing washer

The built-in lubricated balls are made of specialized high-carbon chromium bearing steel and are finely machined. The balls feature excellent hardness, wear resistance and fatigue durability.
