1 Slide the Bun-G-Ring onto the lens

2 Tighten the screw

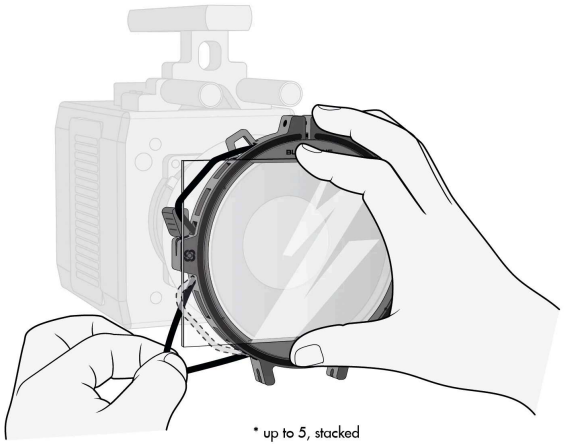

3 Attach a Light Stopping Insert* (if needed)

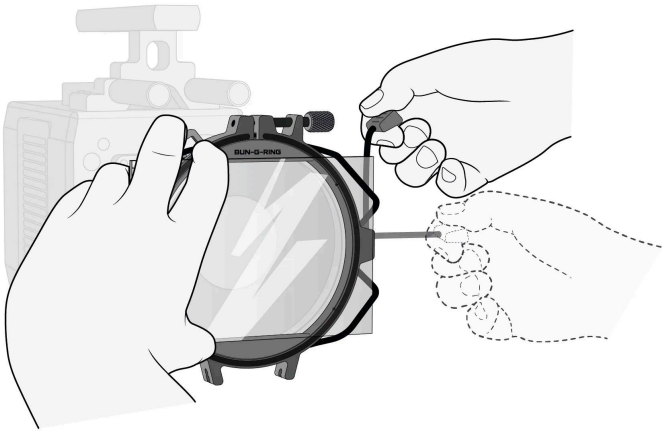

* only BGR-110/BGR-114

4 Position the filter(s*) and loop the cords around the corners

* up to 5, stacked

5 Pull the bungee cords upward to tighten, then release them into the auto-locking wedge

6 If neccesary, hook excess bungee cord behind the clips to prevent tangling

BUN-G-RING
