Paragraph (Retail)

Samsung’s 32" M8 Smart Monitor, with the NQM AI Processor and featuring 4K UHD resolution, delivers an AI-powered experience. Smart TV Apps provide instant access to your favorite content. The processor upscales lower-resolution content to 4K, while the AI Picture Optimizer adapts visuals for optimal quality whether you're working, gaming, or watching videos. Knox Security protects your data and enhances the safety of your IoT connections through tightly controlled access. Click-to-Search provides instant content details. Gaming Hub gives access to the biggest games from top streaming partners with no PC or console required. Active Voice Amplifier Pro uses advanced audio processing to ensure dialogue comes through clearly. SmartThings enables control of connected devices, turning your monitor into a central IoT hub. The SlimFit Camera attaches to the monitor and provides clear picture quality. The ergonomically designed stand supports comfortable viewing with height adjustment, tilt, and pivot capabilities. Multiple ports, including USB-C, HDMI, and USB-A, make connectivity simple.

Watch Together with your AI Companion	Instant access to your favorite streaming content: Smart TV Apps	Stream content directly from your monitor, or tune into Samsung TV Plus to get live TV channels and on-demand content.*	*Features, services and app availability may vary by country and region. Samsung TV Plus and Universal Guide may not be available in some regions. Some features may require separate subscriptions. The user interface is subject to change without notice. This Smart Monitor does not include a TV tuner, which is not necessary for streaming apps. Internet connection is required. Remote control specifications vary by country and region. Keyboard and mouse control compatibility varies by app. Access to the full range of smart features, such as network-based services, applications (including games and streaming services), and smart home functionality, requires a Samsung Account. Without logging in, functionality is limited to external devices, e.g. via HDMI. You can sign up for a free Samsung Account at https://account.samsung.com. Terms and conditions apply.

Watch Together with your AI Companion	Discover what’s on your screen: Click to Search	Enrich your viewing experience with Click to Search. With just a click, you'll instantly get content recommendations and details on what you're watching — so you can explore actors' biographies, filmographies and more.*	*Feature available in certain regions and models only. Feature will be available on cable, and Samsung TV Plus. Actor details are provided based on the metadata associated with the content you’re watching. This information may not always be complete or correct, so please double-check the actor details.	
	Where gaming comes together: Gaming Hub	Access the ultimate gaming realm. In the Samsung Gaming Hub, you can play the biggest games from top streaming partners, with no PC or console needed. Discover new games or replay old favorites all in one place.*	*Gaming Hub is available in certain countries only, with app availability differing by country. UI is subject to change without prior notice. Accessing Gaming Hub is free of charge. Subscription may be required to access content offered by game-stream providers on the Gaming Hub. You may need to download apps depending on the game or service. A separate controller may be required depending on the specific game you are playing on the Gaming Hub. Requires internet connection.	
AI-Powered Picture and Sound	Upscale your streaming content with AI: 4K AI Upscaling	Unlock the full potential of a 4K screen when streaming content directly on your monitor. Powered by the NQM AI Processor, AI upscaling turns lower resolution content up to 4K, transforming entertainment with new levels of definition.*	*Viewing experience may vary according to types of content and format. Upscaling may not apply to PC connection and Game Mode. Screen images simulated for illustrative purposes.

AI-Powered Picture and Sound	Optimally tailored visuals with AI: AI Picture Optimizer	Experience optimal picture quality adjusted to your needs. AI Picture Optimizer adapts the visuals to help you work on documents with comfort, get fully immersed in games with deep, rich blacks, and watch videos in vibrant colors.*	*Only available when using a PC connection. The supported image quality may differ based on the type of content detected by the function.	 A composite image showing the AI Picture Optimizer feature. The top half is labeled 'ON' and shows three panels: 'Game' with a dark, vibrant scene, 'Document' with a clear, high-contrast image of a bar chart, and 'Video' with a colorful scene of three women. The bottom half is labeled 'OFF' and shows the same three panels with less optimal image quality.
	Hear every word clearly with AI: Active Voice Amplifier Pro	Enjoy an unparalleled audio experience with AI technology. Active Voice Amplifier Pro uses advanced audio processing to analyze voices and background sounds in your content and ambient noises around the monitor — delivering every word with crystal clarity.*	*Screen images simulated for illustrative purposes.	 A diagram illustrating the Active Voice Amplifier Pro feature. It shows a computer monitor displaying a video of two people talking. A sound wave labeled 'Dialogue' is shown coming from the monitor, while a sound wave labeled 'Background sound' is shown coming from the room. A dog is shown barking, with a sound wave labeled 'Noise' coming from it. The diagram indicates that the feature amplifies the dialogue while reducing background noise.
Safe and Easy Connections	Simple control for your smart home: SmartThings	See your smart home devices in a 3D Map View and manage them with ease. You can also check the energy usage and cost by device, and save money by putting them in energy-saving modes. Simply tap into the all-in-one IoT hub using your mobile phone or voice command — without pausing shows.*	*Technology, functions and features may vary by country, service provider, network environment or product, and are subject to change without notice. Requires Wi-Fi, Bluetooth or other wireless network connection, and devices registered to the SmartThings app. Connected devices are sold separately. For a full compatible device list, please check https://www.smarththings.com/products .	 A composite image showing the SmartThings 3D Map View feature. The left side shows a computer monitor displaying a 3D floor plan with various smart home devices (like a vacuum cleaner, printer, and refrigerator) connected to a central hub. The right side shows a real-world view of a smart home with a vacuum cleaner, a printer, and a refrigerator, with icons indicating they are connected to the SmartThings app.

Safe and Easy Connections	Your privacy. Secured on Samsung monitors.: Knox Security	Keep your monitor data safe and confidential with Samsung Knox. Its robust, multi-layered security and tightly controlled access also enhance the security of your IoT connections made through your Smart Monitor. Plus, your Smart Monitor comes with Knox Vault — a built-in hardware chip designed to safeguard sensitive information from physical attacks — adding an extra layer of protection for peace of mind.*	*Samsung Knox safeguards the Smart Monitor and its IoT connections via the SmartThings app. It does not provide direct protection against hacking or physical attacks on IoT devices. Security software updates are guaranteed for at least five years from product launch. Latest software update is required.	
	Faster, easier access to your work tools: Workspace	Access and control your PC remotely, or work directly on the monitor. Built-in apps like Microsoft 365 let you bypass the PC for a simpler, more streamlined work experience. Plus, with Multi View you can see apps side-by-side and take your productivity to new levels.*	*On-screen content simulated for illustrative purposes. Microsoft 365 requires Microsoft account. Some features of Microsoft 365 require subscription. Windows 10 Pro, Mac OS 10.5 or higher, and compatible network settings are required for this feature.	
	Expand your workflow with seamless control: Multi Control	Take multitasking and productivity to the next level. Seamlessly drag and drop documents and images across multiple Samsung devices onto your Smart Monitor for a clearer view and larger workspace — all with a single mouse and keyboard.*	*Each device must be registered with a single Samsung Account and connected to the same Wi-Fi network. Multi control requires updated Galaxy phones and tablets with One UI 5.1.1 or above and Galaxy Book series devices released in 2021 or later with Samsung Settings v1.5(Intel) or Samsung Settings v3.3(ARM). Some functions(such as Copy & Paste or Drag & Drop) may not be available when using certain device models and apps. Feature availability may vary by region(e.g. not provided in People's Republic of China). Screen images simulated for illustrative purposes.

Key features

Smart TV experience with AI

Stream content directly from your monitor, or tune into Samsung TV Plus to get live TV channels and on-demand content.

4K AI upscaling

Unlock the full potential of a 4K screen when streaming content directly on your monitor. Powered by the NQM AI Processor, AI upscaling turns lower resolution content up to 4K, transforming entertainment with new levels of definition.

AI Picture Optimizer

Experience optimal picture quality adjusted to your needs. AI Picture Optimizer adapts the visuals to help you work on documents with comfort, get fully immersed in games with deep, rich blacks, and watch videos in vibrant colors.

Knox security

Keep your monitor data safe and confidential with Samsung Knox. Its robust, multi-layered security and tightly controlled access also enhance the security of your IoT connections made through your Smart Monitor.

SmartThings

See your smart home devices in a 3D Map View and manage them with ease. You can also check the energy usage and cost by device, and save money by putting them in energy-saving modes. Simply tap into the all-in-one IoT hub using your mobile phone or voice command — without pausing shows.

Gaming Hub

Access the ultimate gaming realm. In the Samsung Gaming Hub, you can play the biggest games from top streaming partners, with no PC or console needed. Discover new games or replay old favorites all in one place.
