

KMUS-1422

Utility Stand

for Mixers and Keyboards

Owner's Manual

Thank you for choosing Auray.

The Auray KMUS-1422 Utility Stand provides a secure and steady platform for audio mixers, DMX controllers, synthesizers, and MIDI controllers. Its rapid setup and adjustable height, width, and tilt are perfect for concert or studio operation. Set the stand from 24.5 to 38.5 inches in height and adjust the tilt for the optimal angle when sitting or standing. An adjustable width from 14 to 24 inches provides an ideal fit for your gear. Rugged all-steel construction securely supports heavy loads with ease, and the heavy-duty security pins and ergonomic riser locking knobs ensure the stand's stability.

The included rubber feet can be adjusted for wobble-free support on uneven floors, and neoprene padding prevents slipping and minimizes vibrations that can cause distracting noise. The stand is easily assembled and disassembled without extra tools, so it can travel to remote shoots, gigs, or concerts and be set up without delay or down time.
